TURRET CLOCK FORUM
Thursday 2nd September 2010 at Upton Hall

The third Turret Clock Forum will be held on Thursday 2nd September. Again the objective is to provide a platform to present and exchange useful information to everyone involved in turret clock work. The main audience is intended to be professionals involved in restoration work, but will include diocesan clock advisers, historians, heritage bodies, collectors and anyone who has a passion for, or is interested in, turret clocks. The meeting is open to all, including non-members. We will continue to make time for discussions that have proved to be an interesting and lively part of the programme.

PROGRAMME

- 9.30** **Doors Open, Registration, Coffee**
